Eli’s Legacy

”Building on the Shoulders of Giants”

Eli Goldratt

Digitization:

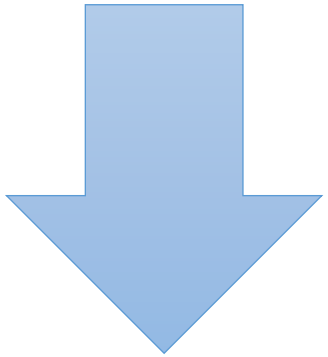
- The process of converting data and information into a digital format.

Digitalization:

- A TOC Transformation embraces the ability of digital technology to collect data, turn it into information, establish trends and make better business decisions.

- “If **digitization** is a conversion of data and processes, **digitalization** is a transformation. More than just making existing data digital, **digitalization** embraces the ability of digital technology to collect data, establish trends and make better business decisions.”

Gartner



- As TOC Practioners, we do not have to become IT experts, rather become knowledgeable on existing IT solutions that are necessary for long lasting Transformation.

Role of TOC

- TOC is Uniquely capable to significantly influence:

1- The design of new emerging IT solutions Systems architecture

2- Modifying and Improving existing Legacy systems

3- Opportunities for TOC Experts for educating on Leveraging the integration and synchronizing possibilities

4- Embedding TOC business rules into process' and strategies

5- Look for opportunities to codify into solutions – Multiplier Effect

- When I come across or think of these quotes, I think of Eli saying them.

"Everything **should** be made as **simple as possible**, **but no simpler**."

- Albert Einstein

"The difference between genius and stupidity is that genius has its limits."

- Albert Einstein
